'Hair oil's the ultimate moisturising treat'

The Clothes Show Style Awards Celebrity Hairdresser Of The Year Jamie Stevens says:

- 1 To ensure even distribution, rub hair oil all over hands before running them through your hair.
- 2 If you have fine hair, apply product to the scalp only; from the middle down on medium to thick hair; and from the scalp to the ends on coarse hair.
- 3 To get silky smooth hair, apply oil to dry locks and allow to sit for 15-20 minutes before rinsing.
